

Who are we?

INTROS Automation is a dynamic, ambitious, and fast-growing company specializing in projects related to the integration of robots and systems. We support our clients in the design, optimization, and implementation of innovative technological solutions.

Are you passionate about developing and designing electrical hardware and enjoy tackling technical challenges? INTROS Automation wants to meet you! To strengthen our team, we are currently looking for an:

ELECTRICAL HARDWARE ENGINEER

Your Responsibilities:

Your tasks depend on the type of project you are involved in:

- Organize projects according to defined schedules.
- Participate in technical discussions on projects and contribute to the selection of appropriate materials and components.
- Attend project meetings focusing on technical aspects.
- Ensure project quality in compliance with standards, norms, and methods, using standard hardware.
- Develop electrical schematics in EPLAN Electric P8.
- Serve as the technical point of contact for technicians during project execution, whether in our workshop or at the client site.
- Work closely with software engineers.
- Report regularly and directly to the lead engineer.

Your Profile:

- You hold a degree in a technical field. A positive attitude is valued more than a degree.
- Good knowledge of Microsoft Office.
- Excellent knowledge of electricity.
- Knowledge of mechanics, pneumatics, hydraulics, and an interest in software engineering is a strong asset.
- Knowledge and experience with the Machinery Directive and applicable standards (60204, 61439, 13849, CE, etc.).
- Team player.
- Flexible and autonomous.
- Detail-oriented and precise in your work.
- Fluent in Dutch; basic knowledge of English and French is a plus.
- Possess a valid driving license (B).

What We Offer:

- Daytime work in a young and fast-growing company.
- Numerous varied projects offering multiple challenges and autonomy.
- Work with a wide range of industrial clients.
- Opportunities for long-term career growth.
- Competitive salary based on experience and age.
